ISAAC LANGLEY WILLIAMS
Exeter Wild Flower Gardens
EXETER, NEW HAMPSHIRE

INTRODUCTION

HERE at Exeter we are growing Wild Flowers and Ferns in quantity under overhead brush shade. We have over 300 species of selected Wild Flowers and Ferns growing under conditions favorable to the development of plants which can be transplanted to your garden successfully. The requirements of each species have been studied over a period of years, and those conditions necessary for producing specimen plants are carefully complied with.

The Exeter Wild Flower Gardens are located on the Newmarket Road, 1½ miles from Exeter. To reach us, drive through the Swasey Memorial Parkway, and go straight ahead on the Newmarket Road. After you pass under a railroad bridge, a Dutch Colonial brick house may be seen at the top of a hill. Look for the sign at the entrance. Visitors are always welcome.

HOW TO ORDER WILD FLOWERS

SHIPPING INSTRUCTIONS. Please state how you wish your order shipped. If no instructions are sent by a customer, we will use our best judgment, but will not be responsible for delay in transit.

PRICES. All prices are for plants f.o.b. Exeter, transportation charges to be paid by the purchaser. Six plants of one kind will be sold at the dozen rate, fifty plants at the hundred rate. If a single plant of one kind is desired, take one-third of the rate given for three and add 5 cents. Leaf-mold and Pine Needles cannot be shipped by Parcel Post.

DISCOUNT. All orders accompanied by full amounts in cash, and received not later than March 20, 1942, are subject to a 10 per cent discount.

TERMS. All orders should be accompanied by full amount in cash, check or money order.

CLAIMS. When the plants are received, examine carefully and, if damaged in transit, notify the transportation company at once, entering claim with them for the amount of the damage. We are not responsible for damage in transit, but if the plants are unsatisfactory through fault of ours, notify us at once, and we will either replace or refund your money. Any complaint regarding the quality of the plants must be made within 10 days of receipt of plants.

GUARANTEE. All plants are guaranteed true to name and free from disease. Each shipment will be accompanied by a Certificate of Inspection.

Leaf-Mold Peat

Most of the Wild Flowers and Ferns grow naturally in a soil composed largely of Leaf-Mold. We are offering finely ground, screened, Leaf-Mold in 2-bushel bags. Weight 100 lbs. The Leaf-Mold should be mixed with the soil to the depth of several inches. It retains moisture, and also greatly benefits the condition of the soil. 2-bu. bags, \$2.50. By express or freight only.

Pine Needles

These are very useful for a mulch around acid-loving plants, such as Trailing Arbutus and Cypripedium acaule. Pine Needles may also be mixed to a depth of several inches in the soil where one is going to plant any of the acid-loving plants, particularly the Cypripedium acaule. These Pine Needles will be partially decomposed, and are ideal for the purpose intended. Price per 2-bu. bag, \$1.00; 10 bags, \$5.00. By express or freight only.
